Correct me if I'm wrong, but 6502 was used in Apple 2 or 2e wasn't it? Here I was feeling good making a beep program in Basic when I was a kid on a cassette tape. This guy is busting out assembly. :)

Ultima, Akalabeth & 28 DND "prequels" all in basic. Ultima][was my 1st assembly, by Ultima][I was an "experienced" assembly coder, with 1 whole program under my belt!
